Amsterdam, March 2006

Dear colleague,

Celebrating an anniversary is always an event. This year the International Federation of Computer Law Associations celebrates its 20th anniversary. A good time to look back at what we have achieved and to look forward to what plans and ambitions we still have.

IFCLA, a unique, world class network, started out 20 years ago as a federation of national Computer Law Associations who decided to make use of the advantage of being able to internationally share knowledge and experiences in the field of IT Law. By listening to other renowned lawyers, practitioners, professionals and professors talk about their lessons learned. By learning about interesting cases, frameworks and rulings as they happened in other countries. By having lively discussions with conference participants about fascinating developments. By networking with well-known and celebrated professionals from all over the world.

The Netherlands Association for IT and Law (NVvIR) is honored to host this special edition of the renowned IFCLA conference, which will take place in The Grand in Amsterdam. A place where history was made, as it has been at the heart of the life of Amsterdam for so long now, and where echoes of previous life and traces of a colonial past are glimpsed everywhere. Ever since the 15th century the hotel has been a 'Lodging for princes and great lords' and in 1966 it was the stage for the wedding of Queen Beatrix and Prince Claus.

IFCLA is proud to celebrate its 20th Anniversary by presenting you with a great line-up of leading lawyers and practitioners showcasing recent developments in information technology and internet law. Leaving you with key insights by listening, learning, discussing and networking!

We look forward to welcoming you to the IFCLA 2006 Amsterdam conference.

Dinant T.L. Oosterbaan
President IFCLA
